

Gibson, S. F. F. and Mirtich, B., 1997.

A survey of deformable modeling in computer graphics. Technical report, Mitsubishi Electric Research Laboratories.

Lee, Y., Terzopoulos, D. and Walters, K., 1995.

Realistic modeling for facial animation. In: SIGGRAPH '95: Proceedings of the 22nd annual conference on Computer graphics and interactive techniques, ACM, New York, NY, USA, pp. 55–62.

Nealen, A., Mueller, M., Keiser, R., Boxerman, E. and Carlson, M., 2006.

Physically based deformable models in computer graphics. Computer Graphics Forum 25(4), pp. 809–836.

Terzopoulos, D. and Waters, K., 1990.

Physically-based facial modelling, analysis, and animation. The Journal of Visualization and Computer Animation 1(2), pp. 73–80.

Fig. 4: Example of various compressible (self-protant) structures designed with our tool.

## **Notes**

<sup>1</sup>Compressible structures are also commonly referred to as “funicular” and “compression-only” (or “tension-only” when referring to the model before vertical flipping).
